

USB Keypad + CardReader + 2x USB 2.0 Port

Description

Use the Delock Keypad as a practical accessory for notebooks or PC, by connecting it to a free USB port of your system. Thus you can enter numbers and symbols quickly and easily and work more comfortable. Furthermore the Keypad has two USB ports for connection of additional USB devices as well a CardReader, which can read and write different memory cards. The rubber burling on the bottom, provide a strong hold, whether at home or on the way.
