

IDE Flash Module 40Pin 256MB Vertical

Description

The Delock 256MB IDE Flash memory module with its dimensions of 5,7 x 2,2 x 0,6cm very small and ideal for usage under rough environmental circumstances and for the application in computers, Set-Top boxes and other devices in industry. A safe data transfer is provided by the integrated Error Correction Code (ECC). Power-save mode and automatic shut-down enhance the energy efficiency.

Art. 54142

EAN 4043619541423

Specification

- Storage capacity 256MB
- Operating voltage 3.3V or 5V
- Operating temperature: -10°C up to +70°C
- Endurance 2.000.000 Program / Erase cycles
- Static wear leveling
- Auto Sleep & Power-Down Mode
- Integrated ECC function for high reliability of data transfer rate
- PIO Mode 0-6, MWDMA Mode 0-2, UDMA Mode 0-4
- 20MB/s Read, 10MB/s Write
- Power consumption max. 140mA
- MTBF : > 3.000.000 Std.
- Certification: CE, RoHS, WEEE

Package content

- 256MB IDE Flash Modul
- Power cable

Package

- antistatic cover
