

Standard Compact Flash card 1GB

Description

The Delock CF memory card is due to its fast read and write speed ideal for storage and recall of data and thus is suitable for cameras, for internal memory storage of a PC, etc. A safe data transfer is provided by the integrated Error Correction Code (ECC). Power-save mode and automatical shut-down enhance the energy efficiency.

Art. 54203

EAN 4043619542031

Specification

- Storage capacity 1GB
- 50pin Compact Flash interface
- Operating voltage 3.3V or 5V
- Operating temperature: -10°C bis + 70°C
- Endurance 2.000.000 Program / Erase cycles
- Static wear leveling
- Auto Sleep & Power-Down mode
- Integrated ECC function for high reliability of data transfer rate
- PIO Modus 0-6, MWDMA Modus 0-4, UDMA Modus 0-4
- 40MB/s Read, 20MB/s Write
- Power consumption max. 150mA
- Burst Transfer Rate: 66,6MB/sek.
- MTBF : > 3.000.000 Std.
- Master and Slave switch
- Vibration: 5G (7~200Hz)
- Shock: 50G/10ms
- Size: 42,8 x 36,4 x 3,3mm (WxLxH)

Package content

- 1GB CF Card

Package

- antistatic cover
