

Slot bracket eSATAp 5V/12V + USB 2.0

Description

This slot bracket enables you to lead out the internal ports, in order to connect devices to the externally available eSATAp and USB ports. The eSATAp port provides a voltage supply of 5V and 12V, thus you can connect also 2,5" and 3,5" HDDs to this interface, by using special Delock products, like eSATAp cable or docking stations.
