

Delock Bluetooth Mini Keyboard for Windows / Android / iOS - rechargeable black

Description

This keyboard by Delock can be wirelessly connected to a Windows, Android or iOS system via Bluetooth. The keyboard is especially suitable for tablets, smartphones, but also for small workstations that offer little space for large keyboards.

Handy and small

Optically, the keyboard convinces with its flat and compact design, which makes it flexible in use. A mobile workstation can thus be set up quickly.

Rechargeable

On the side of the keyboard there is a Micro USB female port, which can be used to charge the keyboard with the included USB cable.
