

Mini DisplayPort to HDMI Adapter 8K with HDR

Description

This adapter by Delock enables the connection of an **HDMI monitor**, projector or TV to the device with a free mini DisplayPort interface. Due to the small dimensions, the adapter is ideal as on the go companion.

Excellent picture quality

The adapter supports a resolution up to **8K Ultra HD (7680 x 4320 @ 60 Hz)**, which is four times the resolution of 4K and is backward compatible to 4K Ultra HD and Full-HD 1080p. Thus, the Delock adapter can be used for applications such as photo and video editing, digital video walls and gaming.

Supports HDR

By the support of the **HDR** (High Dynamic Range) function, the screen can be displayed sharper, clearer and more vivid.

Active adapter

The adapter offers an active conversion, thus it is also suitable for graphics cards that are not capable of outputting DP++ signals.
