

Delock Adapter VGA + Audio Extension

Description

This Delock VGA adapter can be used for transmission of a video and audio signal up to 70 m distance in only one cable. For the audio transmission you have to connect the cinch plug of the computer adapter with audio output port of your PC or notebook and connect your active speaker to cinch female port of the second adapter. For connecting both adapters you can use an optional standard VGA cable.

Item no. 65353
