

Delock Trigger Module for built-in scanner 90603

Description

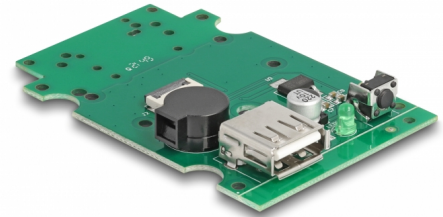

This PCB by Delock is the suitable accessory for the Delock scanner module 90603.

How it works

A suitable module (e.g. 90603) with an FPC 12 pin connector is required for the test board. The test board itself will be connected to the system via a USB cable. The push button serves as a trigger for the scanner module and initiates a scan.

Note

The test board is not intended for installation.
